SKILLS

Programming & Scripting

JAVA · JavaScript · PHP · HTML · Python

Frameworks & Libraries

Next.js · React.js · Django · Laravel CodeIgniter

CMS & E-commerce Platforms

WordPress · Magento

Databases & Backend

MySQL · PostgreSQL · Firebase · RESTful APIs

DevOps & Deployment

Linux (AlmaLinux) · Nginx · Git · Docker · CI/CD

ACHIEVEMENTS

- IEEE Research Publication – I2CT 2019, India
- 2nd Place – Cutting Edge "Dhuthaya" Competition
- Top 12 – IIT Hackathon (Elektra Project)

ABOUT ME

I am a Software Engineer dedicated to building scalable, high-quality web applications. I focus on clean code, efficient architecture, and creating reliable, user-centered digital solutions.

WORK EXPERIENCE

Freelance Software Engineer

Jun 2025 – Present

- Develop and deploy full-stack web apps with CodeIgniter, Django, and Next.js.
- Built a PDMS and a CMS-style website hosted on AlmaLinux + Nginx, focusing on scalability and clean architecture.
- Manage complete project lifecycle from design to deployment.

Freelance & E-commerce Work

Jan 2022 – May 2025

- Managed an online business end-to-end, gaining strong ownership, planning, and client-facing skills.
- Balanced multiple projects while maintaining focus on quality and delivery.

Instructor – Cortex International (Pvt) Ltd

Aug 2020 – Jan 2021

- Delivered E-commerce and web-technology training; guided learners through project workflows.

Software Engineering Intern – Crowderia (Pvt) Ltd

Jul 2017 – Jul 2018

- Contributed to web and mobile apps including Catchingo and KarmaMirror using Laravel, ReactJS, and Firebase.
- Assisted in development, testing, and documentation under agile processes.

TECH STACK

- Full-stack Web Development
- API Design & Integration
- Server Configuration (Nginx / AlmaLinux)
- Deployment & Version Control (Git, Docker)
- Database Management (MySQL / SQLite / Firebase)
- CMS Development (WordPress, Magento, Custom CMS)

KEY STRENGTHS

- Scalable Architecture
- Clean, Maintainable Code
- Rapid Problem Solving
- Team Collaboration
- Project Ownership
- Continuous Learning

TOOLS & ENVIRONMENTS

VS Code · GitHub · Linux · Firebase Console · AWS (basic)

LANGUAGES

English · Sinhala

EXTRACURRICULAR ACTIVITIES

Badminton – Multiple provincial and all-island championships
Tennis – Inter-school and regional competitions
Archery – Competed at provincial level
Colors Award – Best Badminton Player, Maliyadeva College

EDUCATION

BEng (Hons) in Software Engineering

University of Westminster (UK) — through Informatics Institute of Technology, Sri Lanka
2015 – 2019

- Member, IEEE Student Branch of IIT
- Published research paper: "Review on Electricity Consumption Forecasting Approaches," IEEE 5th I2CT Conference 2019 (India)

Maliyadeva College, Kurunegala

2002 – 2015

- G.C.E. Advanced Level (Combined Maths Stream)
- G.C.E. Ordinary Level – 4 A's & 5 B's

PROJECTS

PDMS – Ministry of Education Management System

Full-stack web app for managing student, teacher, and staff data at the Ministry of Education (Sri Lanka).
Tech: CodeIgniter · MySQL · JS · Nginx · AlmaLinux
Built role-based dashboards, reporting tools, and optimized server deployment.

Piriven Education CMS Platform

Content management system for the Division of Piriven Education website.
Tech: Next.js · Django · SQLite · Nginx · AlmaLinux
Developed admin dashboard, REST APIs, and handled end-to-end deployment.

Electricity Consumption Forecasting System

Energy-use prediction model published at IEEE I2CT 2019
Tech: Python · Django · Machine Learning
Focused on regression-based forecasting and data preprocessing.

Elektra – Smart Multi Plug (IoT)

IoT system enabling remote control of home plugs via mobile app.
Tech: Python · Android · Firebase · Raspberry Pi
Selected among top 12 projects at IIT Hackathon.
